

ROBOTWALA

Igniting Young Minds for Tomorrow's Tech

AI · Robotics · Drones · 3D Printing · Coding · STEM Education

About this document: This is a comprehensive organisational profile of Robotwala — Indore's pioneering AI, Robotics & STEM education institute, co-founded by Prof. Imran Baig. All information has been cross-verified from the official website (robotwala.org), LinkedIn, and multiple public sources. Prepared for RAG-based chatbot integration.

About Robotwala: Robotwala is India's leading AI, Automation and robotics company delivering affordable, premium, and AI-powered technology solutions.

Keys Highlights

25 Plus Robots Launched
200 Plus School Inspired
50 Plus College Inspired
200k Plus Student Taught

• Organisational Overview

Field	Details
Full Name	ROBOTWALA
Tagline	Igniting Young Minds for Tomorrow's Tech
Official Website	www.robotwala.org
Alternate Domain	robotwala.com (canonical redirect)
Type	EdTech / STEM Training Institute & Innovation Startup
Sector	Robotics · Artificial Intelligence · Drone Technology · 3D Printing · Coding · Automation
Address	201, Apollo Avenue, Old Palasia, Indore, Madhya Pradesh, India
City	Indore, Madhya Pradesh, India
Twitter / X Handle	@ROBOTWALA
Instagram Handle	@robotwala_
Meta Description	Leading robotics company specialising in custom robot development, AI automation, interactive robots, and industrial solutions.

• Founding & Leadership

Robotwala is led by a three-member leadership team — two Co-Founders and an Investor & Mentor — as displayed on the official Robotwala website (robotwala.org).

Prof. Imran Baig — Co-Founder

Field	Details
Full Name	Prof. Imran Baig
Designation	Co-Founder, Robotwala
Location	Indore, Madhya Pradesh, India
Education	Central India Institute of Technology and Science
LinkedIn Profile	linkedin.com/in/imran-baig-techtrainer/
LinkedIn Network	500+ connections; connected to Acropolis Group of Institutions network
Key Awards	He bulid India's first traffic robot & was awarded with Dewarth Award — Advanced Academy for Technology Innovation & Robotics
Academic Role	Reviewer, ICSSCC 2026, organised by MIT World Peace University
Philosophy	"AI & Robotics isn't just learning, it's transformation. Code. Create. Transform."

Prof. Imran Baig has hands-on experience on building automation hardware — including a mini contactless automation project using Arduino, IR Sensor, Relay Module, and a Bulb. He is the inventor of India's first Traffic Robot. He actively shares knowledge on robotics education and STEM through LinkedIn posts, highlighting how robotics strengthens critical thinking, creativity, and prepares students for STEM careers.

Dr. Zaheeruddin Babar — Investor & Mentor

Field	Details
Full Name	Dr. Zaheeruddin Babar
Designation	Investor & Mentor, Robotwala
Location	Indore, Madhya Pradesh, India
Organisation	Robotwala — AI, Robotics & STEM Education Institute
Source	Official Robotwala website Leadership Team page (robotwala.org)

Dr. Zaheeruddin Babar serves as Investor and Mentor at Robotwala, providing strategic guidance, financial backing, and mentorship to the leadership team. His involvement strengthens Robotwala's foundation as a credible and growth-oriented robotics education startup in Indore.

- **Mission, Vision & Values**

Mission

Our Mission is to make advanced robotics and automation accessible through innovative, reliable products that enhance productivity, safety, and efficiency. Driven by quality and continuous innovation, ROBOTWALA aims to become India's No.1 Ai, Robotics & Drones product-selling company.

Vision

Our Vision is to become a global leader in robotic innovation by 2028, creating a future where Humans and Robots work seamlessly together. We aim to empower businesses, improve lives, and push the boundaries of automation and artificial intelligence through world-class technology.

Core Values

- Hands-on, project-based learning at every level
- Innovation through trial, error, and creativity
- Accessibility — bringing STEM education to students of all backgrounds
- Industry-aligned curriculum that prepares learners for future careers
- Community building across schools, colleges, and professionals

- **Our products**

Explore our innovative range of AI, Robotics, and EdTech solutions designed for modern industries, smart learning environments, automation, and real-world applications.

Robotics & AI Solution

LUCY: One step solution for your organisation to evolve into AI & Robotics.

NYLA: Nyla is our signature interactive robot designed with Agentic AI and Rag system making it.

NYLA 2.0: World's first Robot capable to perform mutual funds transactions & specially designed for banking.

EdTech Kits

Home Automation: Beginner-friendly smart home automation learning kit.

Smat Automation: Hands-on automation and IoT kit with real-world projects

Robotics kits: Complete Robotics kit to build, program, and experiment.

- **Our Collaboration**

College Collaboration: Transforming higher education with advanced AI, Robotics, and Drone Technology Labs, empowering students with industry-relevant, future-ready skills.

- AI & Robotics Innovation Labs
- Drone Technology & Aerial Systems Training
- Industry-Oriented Skill Development
- Research, Projects & Technical Mentorship

School Collaboration: Advanced AI, Robotics, and Drone Labs deployed in schools to foster hands-on learning, innovation, and future-ready skills—typically valued at ₹5,00,000 and provided completely free of cost, with ongoing support at affordable rates.

- AI & Robotics Learning Labs
- Drone Technology Training
- Curriculum-Aligned STEM Programs
- Teacher Training & Ongoing Technical Support

- **AI Solution**

Smart AI solutions for automation, innovation, and efficiency.

- AI-powered automation for smarter workflows
- Real-time data analysis and decision making
- Intelligent chatbot and virtual assistant support
- Computer vision and object detection systems
- Voice recognition and multilingual interaction
- Predictive analytics for business growth
- AI integration for education and robotics
- Custom AI solutions for different industries
- Enhancing productivity with Generative AI

Why Choose Robotwala

We integrate Innovation, Technical Expertise, and Unwavering commitment to deliver advanced Robotic solutions that surpass expectations and create measurable value for your business.

Industry Leaders

16+ years of Excellence.

Expert Team

World-class Engineers and Designers

Global Reach

Serving clients across multiple countries

Our Achievements

World first Mutual Fund transactions robots

Indias first traffic robots and also indias second traffic robots

Inodre Airport robot

Internship Program

An On-site (offline) internship designed to provide intensive, hands-on industry exposure in Advanced AI, Robotics, and Drone Technology.

- Real-World Project Experience
- Advanced AI & Robotics Training
- Drone Systems & Applications
- Industry Mentorship & Career Readiness

Franchise

#RevolutionByRobotwala - Partner with Robotwala to build future-ready robotics ecosystems in your city with strong technical support, branding, and growth opportunitie

- Environmental Analysis
- Autonomous Navigation
- Aerial Data Capture

- Efficient Logistics

Robotwala operates across six core technology verticals, offering training, workshops, lab setup services, and custom development for schools, colleges, and businesses.

- **Services & Programme Offerings**

Robotwala operates across six core technology verticals, offering training, workshops, lab setup services, and custom development for schools, colleges, and businesses.

Robotics Education & Training

- Beginner to advanced robotics courses for school students, college students, and working professionals
- Arduino and Raspberry Pi programming and hardware integration
- Multi-modal robot development (one robot, multiple operating modes)
- Robotics workshops, summer camps, and innovation labs
- Competition training for national and international robotics contests
- School robotics lab setup and curriculum support

Artificial Intelligence, Automation & Machine Learning

- AI and Machine Learning courses for students and professionals
- Deep Learning and Data Science programmes
- Python programming with AI applications
- AI automation project development
- AI lab setup for educational institutions

Drone Technology

- Drone training, building, and coding classes
- Drone pilot training and UAV programming

- Drone repair and maintenance services
- FPV (First Person View) and autonomous drone systems
- Drone workshops for schools and colleges

3D Printing & Rapid Prototyping

- 3D printing training and hands-on workshops
- 3D modelling and CAD design training
- Rapid prototyping for product development
- 3D printing services for custom parts and projects
- 3D printing lab setup for institutions

Coding & Programming

- Coding classes for kids and beginners
- Python, embedded C, and microcontroller programming
- Arduino and IoT training
- Coding bootcamps and certification programmes
- Embedded systems and electronics training

Industrial & Business Solutions

- Custom robot development for businesses
- AI automation for industrial and commercial applications
- Smart robotics consulting for companies
- IoT and embedded systems solutions
- Robotics lab setup for schools, colleges, and universities
- Robotics franchise opportunities

AI Essential

- Learn the fundamentals of AI & Generative AI
- Master popular AI tools for daily productivity
- Write powerful prompts for better AI results
- Explore real-world AI applications and automation
- Understand ethical and responsible AI practices

Smart Traffic Management

- AI-powered dynamically monitoring systems and optimizing traffic flow for safer, smoother, and more efficient roads.

- **Target Audience**

Segment	Description
School Students (6–18 yrs)	Robotics, coding, AI and drone introduction programmes; summer camps
College / University Students	Advanced AI, ML, robotics, embedded systems, drone & 3D printing courses
Working Professionals	Upskilling in AI, automation, robotics, and Python programming
Educators & Institutions	School/college lab setup, curriculum development, teacher training
Startups & Businesses	Custom robotics/AI automation solutions, product prototyping
Robotics Enthusiasts	Hobbyist workshops, DIY projects, competition training

- **Key Search Keywords & Positioning**

The following keywords reflect Robotwala's official SEO strategy and how the organisation positions itself online. These are useful for RAG retrieval matching:

Category 1	Category 2	Category 3
Robotics institute in Indore	AI institute in Indore	Best robotics institute in Indore
Robotics classes in Indore	AI and machine learning course Indore	Drone training in Indore
Drone coding classes Indore	3D printing services in Indore	3D printing company Indore
Coding classes in Indore	Coding classes for kids Indore	STEM education Indore
Robotics lab in Indore	AI training institute Indore	Machine learning training Indore
Deep learning course Indore	Data science course Indore	Python classes Indore
Arduino training Indore	Raspberry Pi training Indore	IoT training in Indore
Embedded systems training Indore	Industrial automation Indore	Robotics workshop Indore
Robotics summer camp Indore	AI summer camp Indore	School robotics program Indore
College robotics training Indore	Robotics certification Indore	AI certification course Indore
Drone pilot training Indore	UAV training Indore	Drone programming Indore
Drone building course Indore	Drone repair services Indore	3D printer training Indore
3D modeling services Indore	CAD training Indore	Rapid prototyping Indore
Product prototyping Indore	AI development company Indore	Robotics development company Indore
Automation company Indore	Smart robotics solutions Indore	Custom robotics solutions Indore
Robotics consultancy Indore	Robotics innovation center	AI research center Indore

	Indore	
Robotics for beginners Indore	AI for beginners Indore	Coding bootcamp Indore
Robotics competition training Indore	Robotics franchise Indore	STEM lab setup Indore
Robotics startup Indore	AI startup Indore	

- ## Digital Presence & Social Media

Platform	Details
Official Website	https://www.robotwala.org
Canonical Domain	https://robotwala.com
Twitter / X	@ROBOTWALA (official handle from meta tags)
Instagram (primary)	@robotwala_ — active account with Robotwala branding
Instagram (secondary)	@robotwala.co.in — 516 followers, 43 posts
LinkedIn (Founder)	Imran Baig — linkedin.com/in/imran-baig-techtrainer/ (500+

	connections)
OG Image	https://www.robotwala.org/assets/robotwala-logo-BnG9GdLv.png
OG Type	Website
Twitter Card	summary_large_image
SSL Certificate	Valid SSL — secure HTTPS
Platform	Vite-based React frontend (robotwala.org)

Robotwala maintains an active presence on LinkedIn through the founder's profile, where regular posts share robotics education content, project demonstrations, and STEM advocacy. Hashtags regularly used include: #ROBOTWALA #AIRobotics #STEMforKids #FutureSkills #RoboticsEducation #CriticalThinking #Creativity #Innovation.

- ## Institutional Associations & Recognition

Oriental University

Imran Baig and Robotwala have been associated with robotics workshops and technical training programmes at Oriental University, Indore, indicating academic and institutional collaboration in robotics, embedded systems, automation, and experiential engineering education.

Acropolis Group of Institutions

Imran Baig has professional connections with 10+ people at the Acropolis Group of Institutions, Indore, suggesting academic and institutional tie-ups for workshops, training, or collaborative programmes.

MIT World Peace University (MITWPU)

Imran Baig served as a Reviewer for the International Conference on Sustainable Smart Computing and Communications (ICSSCC 2026), organised by MIT World Peace University — reflecting his academic credibility and engagement with the broader research community.

Advanced Academy for Technology Innovation & Robotics

Imran Baig received the Dewarth Award from the Advanced Academy for Technology Innovation & Robotics — an institutional recognition of his leadership and contribution to the field of robotics education.

Sage University

Robotwala's areas of expertise closely align with SAGE University's academic focus on robotics, automation, artificial intelligence, IoT, and innovation-led education, suggesting opportunities for workshops, technical training, industry interaction, startup incubation support, and collaborative learning programmes.

- **Educational Philosophy**

Robotwala's approach to STEM education is grounded in the belief that hands-on, experiential learning produces the deepest outcomes. Key pillars of this philosophy include:

- **Theory Meets Reality:** Hands-on STEM concepts in real-world form — connecting programming, mechanics, and electronics in practical ways.
- **Critical Thinking & Problem-Solving:** Designing, programming, and troubleshooting robots teaches students to analyse challenges, test solutions, and build resilience through trial and error.
- **Creativity & Innovation:** Robotics provides a hands-on canvas for creative exploration — designing custom bots and coding unique behaviours encourages out-of-the-box thinking.
- **Future Career Pathways:** Early exposure to robotics lays the groundwork for careers in AI, engineering, automation, and more — providing a competitive edge.
- **Multi-modal Learning:** Robotwala's proprietary approach includes building robots that perform multiple tasks (three modes from one robot), maximising learning value per build.
- **Transformation, not just training:** The overarching motto — 'Code. Create. Transform.' — reflects the belief that robotics education is life-changing, not merely skill-building.

- **Geographic Context — Indore, Madhya Pradesh**

Field	Details
City	Indore
State	Madhya Pradesh, India
City Type	Largest city in Madhya Pradesh; commercial and educational capital of the state
STD Code	0731
PIN (Vijay Nagar area)	452010
Vehicle Reg.	MP 09
University Hub	Acropolis College, MIT, SAGE University

- **Technical Stack & Website Metadata**

Field	Details
Domain	robotwala.org (primary) / robotwala.com (canonical)
Frontend Framework	Vite + React (modern SPA architecture)
SSL/HTTPS	Valid SSL Certificate — secure connection
OG Meta Title	ROBOTWALA – Pioneering the Future of Robotics
OG Meta Description	Transform your business with cutting-edge robotic technology. Custom robot development, AI automation, and industrial solutions.

- **RAG Chatbot Integration Guide**

This section provides structured data points specifically formatted for use in a Retrieval-Augmented Generation (RAG) chatbot with interruption features.

Recommended Entity Chunks for Vector Store

CHUNK 1 — Identity

Robotwala (robotwala.org) is an AI and Robotics education institute based in Indore, Madhya Pradesh, India. Its address is 201, Apollo Avenue, Old Palasia, Indore, M.P., India. Its tagline is 'Igniting Young Minds for Tomorrow's Tech'. It was founded by Prof. Imran Baig with Dr. Zaheeruddin Babar serving as Investor & Mentor.

CHUNK 2 — Leadership Team

Robotwala has three key leaders as listed on its official website: (1) Prof. Imran Baig — Co-Founder, based in Indore, studied at Central India Institute of Technology and Science, LinkedIn: imran-baig-techtrainer. (2) Dr. Zaheeruddin Babar — Investor & Mentor, based in Indore.

CHUNK 3 — Services

Robotwala offers courses and services in: Robotics (Arduino, Raspberry Pi, multi-modal robots), Artificial Intelligence & Machine Learning, Drone Technology (training, building, coding, repair), 3D Printing & Prototyping, Coding for kids, Python, embedded systems, IoT, and Industrial/Business automation solutions.

CHUNK 4 — Audience

Robotwala serves school students, college students, working professionals, schools, colleges, businesses, and robotics enthusiasts. It provides lab setup, workshops, summer camps, competition training, and custom robotics/AI solutions.

CHUNK 5 — Location & Contact

Robotwala is located at 201, Apollo Avenue, Old Palasia, Indore, Madhya Pradesh, India. Website: www.robotwala.org | Twitter: @ROBOTWALA | Instagram: @robotwala_ | Founder LinkedIn: imran-baig-techtrainer
